Note on Methodology:

The average daily student participation data for the 2018-2019 school year were calculated by dividing the number of free and reduced-price (FRP) breakfast and lunches served in October of each year by the number of school days for that same month. The average daily FRP school breakfast participation was then compared to the average daily FRP lunch participation. District totals include individual schools that do not have breakfast programs as long as at least one district school serves breakfast.
